How to install

All you need is to copy the **DesignSystem** resource package folder and paste into your "ProjectName / ResourcePackage" folder and rebuild the project.

The Sitefinity **DesignSystem (sgds)** resource package include:

1. **sgds stylesheet**
   /DesignSystem/assets/dist/css/sgds.css

2. **sgds javascript file**
   /DesignSystem/assets/dist/js/sgds.js

3. **sgds icon library**
   /DesignSystem/assets/dist/fonts/

4. **sgds grid system template**
   /DesignSystem/GridSystem/Templates
   - **section template** *sgds-section.html*

   - **container template** *sgds-container.html*

   - **grid columns** *sgds-grid-x.html*

5. Master layout with the **DSS compliant Mandatory components** */DesignSystem/MVC/Views/Layouts*
   - **Gov.sg masthead**

   - **Navigation bar widget** */DesignSystem/MVC/Views/Navigation/ NavigationView.sgds.cshtml*

   - **Footer**
